(1/1/2012-4/10/2018)	
Count: 3,456	

Data Disclosure: Data contained on this website represents the information available on community and non-transient non-community (**specifically schools and day cares**) public drinking water systems that are regulated by the State Water Resources Control Board (State Water Board) or Local Primacy Agency (LPA). Please note that the State Water Board's regulatory authority does not include water systems that are defined as "state small water systems", "local state small water systems" or private domestic wells. You should review any notices you receive directly from your drinking water supplier, as these notices may contain more recent information than the statewide data currently available on this website.
